

Activity Handout for Module 1:

Information and Communication Channels within the Guide Service Model (GSM) for Multifunctional Agriculture (MA)

Contents

Analysis of Guide Service Model (GSM)

A 1.1 Icebreaker activity: Choose the Photo you like the best (30 min)

Proposal of New GSM

A 2.1 Using GSM models to find a solution of the problem (30 min)

Communication within GSM

A 3.2 Roleplay (30 min)

11.00		
Unit Title	Analysis of GSM	
Activity Number: A	Duration: 30 min	
1.1		
Learning outcomes	 Describe the meaning of multifunctional agriculture. 	
	formulate the multifunctional farming	
Aim of activity	Representing each other and encouraging conversation.	
	Debates about MA	
Description of	Icebreaker activity: Choose the Photo you like the best	
activity		
Material Required:	Various photos on the subject of MA	
·	Classroom	
Step-by-step instructions for the activity	 Prepare nice photos that represent the agriculture, rural, and complementary activities on the farmbe sure that there will be more photos than participants. Display the photos around a room where the team can walk around or display them on the big table and see them easily. Give the instruction: each of the participants has to choose the photo that he found the nicest, the most interesting. Ask the participants to introduce themselves and explain why they chose the photo. Ask some questions about what the photos represent and encourage the debate about MA. Make an abstract of the debate and explain the definition of MA.

Unit Title	Proposal of New GSM
Activity	Duration: 30 min
Number: A	
2.1	
Learning	Operate with GSM in the practical situations,
outcomes	Compare the existing and new GSMs.
	Tana kuildine
Aim of	 Team building Discussion of a practical example
activity	Finding a solution to a given problem
Description	Using GSM models to find a solution of the problem
of activity	3
Material	Sketches of the existing and new GSM model.
Required:	Computer and access to a file with instructions about the activity, writing the results in a Word
required.	document.
	Printed activity instructions, blank note sheets, coloured pens. Figure of Existing GSM and New GSM
	Examples of Institutes and organizations involved in GSM
Step-by-	 Divide into groups of 4-5 participants. Choose a group leader, recorder and reporter.
step	3. Develop a debate, consult and find a solution with the help of GSM models. You can help
instructions	yourself with the questions below
for the	4. Read the problem, develop a debate and prepare a report.
activity	Problem: The MA job market has recognized new demands for skills and competencies related to advertising and selling products through digital platforms and social networks.
	With the help of CSM models, find out:
	With the help of GSM models, find out: 1. At which levels of the counselling process and how career counsellors can get involved to
	the new needs of the labour market
	2. Who are the people they advise/provide?
	3. In which areas new training will need to be developed4. Which institutions will be responsible for the (use a general description that is suitable for
	all participants of the group, however, from which country they are)
	 preparation and implementation of training,
	for coordination between employers/providers, jobseekers/students and training
	providers, • planning and implementation on the job market
	5. Write/sketch the solution. Prepare the report and present it
